For Research Use Only

VCP Polyclonal antibody

Catalog Number:10736-1-AP

Featured Product

38 Publications

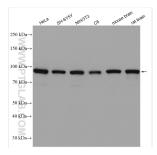

Basic Information	Catalog Number: 10736-1-AP	GenBank Accession Number: BC007562		Purification Method: Antigen affinity purification	
	Size: 150ul , Concentration: 450 µg/ml by Nanodrop; Source: Rabbit Isotype: IgG Immunogen Catalog Number: AG1002	GenelD (NCBI):	otein	Recommended Dilutions: WB 1:2000-1:16000 IP 0.5-4.0 ug for 1.0-3.0 m protein lysate IHC 1:100-1:400	
Applications	Tested Applications:		Positive Controls:		
	WB, IP, IHC, ELISA Cited Applications: WB, IF, IHC, CoIP	WB: HeLa cells, human brain tissue, rat lung tissue, mouse lung tissue, U2OS cells, C6 cells, mouse thym tissue, mouse brain tissue, rat brain tissue, SH-SY5Y cells, NIH/3T3 cells IP: HeLa cells, mouse brain tissue			
	Species Specificity: human, mouse, rat				
	Cited Species: IHC		IHC : human g	IC : human gliomas tissue, human colon cancer	
	Note-IHC: suggested antigen retrieval with TE buffer pH 9.0; (*) Alternatively, antigen retrieval may be performed with citrate buffer pH 6.0				
	VCP(Valosin-containing protein), also known as TER ATPase and 15S Mg2+-ATPase p97 subunit, belongs to the AAA ATPase family. VCP was first identified as a result of attempts to clone a putative peptide hormone called valosin. It was found that the cloned cDNA encoded a ubiquitously expressed 90 kDa cytosolic protein, termed VCP, which showed none of the characteristics of a peptide hormone precursor(PMID:1382975). Defects in VCP are the cause of inclusion body myopathy with early-onset Paget disease and frontotemporal dementia (IBMPFD) and amyotrophic lateral sclerosis type 14 with or without frontotemporal dementia (ALS14). VCP has a calculated molecular weight of 89 kDa and an apparent molecular weight of 90-100 kDa (PMID: 15732117, 1382975).

Selected Validation Data

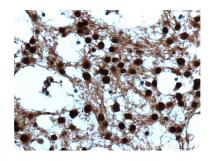

Various lysates were subjected to SDS PAGE followed by western blot with 10736-1-AP (VCP antibody) at dilution of 1:8000 incubated at room temperature for 1.5 hours.

IP result of anti-VCP (IP:10736-1-AP, 4ug; Detection:10736-1-AP 1:1000) with HeLa cells lysate 1505ug.

Immunohistochemical analysis of paraffinembedded human gliomas tissue slide using 10736-1-AP (VCP Antibody) at dilution of 1:200 (under 10x lens).

Immunohistochemical analysis of paraffinembedded human gliomas tissue slide using 10736-1-AP (VCP Antibody) at dilution of 1:200 (under 40x lens).
