This product is exclusively available under Proteintech Group brand and is not available to purchase from any other manufacturer.

Selected Validation Data

HEK293 cells, CHO cells, normal mouse brain and GFP transgenic mouse brain were subjected to SDS PAGE followed by western blot with 66002-1-1g (GFP tag antibody) at dilution of 1:200000 incubated at room temperature for 1.5 hours.

1X10^6 Transfected HEK-293 cells were stained with 0.2 ug Anti-GFP tag (66002-1-lg, Clone:1E10H7) and CoraLite®594-Conjugated AffiniPure Goat Anti-Mouse IgG(H+L) at dilution 1:1000 (red), and 0.2 ug Control Antibody. Cells were fixed with 90% MeOH.

IP result of anti-GFP tag (IP:66002-1-Ig, 4ug; Detection:66002-1-Ig 1:2000) with the vector plasmid pEGFP-N1 Transfected HEK-293 cells lysate 300ug.

Immunofluorescent analysis of Transfected HEK-293 cells using 66002-1-1g (GFP tag antibody) at dilution of 1:50 and Alexa Fluor 594-conjugated AffiniPure Goat Anti-Mouse IgG (H+L).
